

Protection Clear Glass with Frame

MAKES IT BRIGHT

EASY TO ATTACH | PROTECTS UV FILTER

The **Labino Protection Clear Glass with Frame** was designed to protect the UV filter on the front of Labino UV lamps from potentially damaging external material, while still allowing ultraviolet light to transmit through the glass.

Main features:

- Shields UV lamp filter from penetrant wash & sprays
- Protects UV lamp filter from scratches
- Attaches quickly to lamp head*
- Easy to remove

*Simple replacement of heat distance pins on existing Labino lamp, with accompanying screws, is required before mounting.
